October 2026

Stephen Kissler, PhD

Assistant Professor of Computer Science, University of Colorado Boulder
1111 Engineering Dr, Boulder CO 80309
stephen.kissler@colorado.edu https://kisslerlab.github.io/ Google Scholar ORCID

Education

Ph.D. Applied Mathematics, University of Cambridge — 2018
Advisor: Julia Gog
Dissertation: Geographic and demographic transmission patterns of the 2009 A/H1N1 influenza pandemic in the United States

M.S. Applied Mathematics, University of Colorado Boulder — 2014
Advisor: David Bortz
Thesis: Determination of personalized diabetes treatment plans using a two-delay model

B.S. Applied Mathematics, University of Colorado Boulder — 2014
Magna cum laude

Professional Experience

Assistant Professor, Department of Computer Science and BioFrontiers Institute, University of Colorado Boulder, Boulder, CO — Aug 2023 – present
Parental leave, Spring 2026

Affiliate Faculty, Department of Epidemiology, Colorado School of Public Health, Aurora, CO — 2026 – present

Affiliate Faculty, Division of Infectious Diseases, University of Colorado School of Medicine, Aurora, CO — 2026 – present

Affiliate Faculty, Department of Applied Mathematics, University of Colorado Boulder, Boulder, CO — 2024 – present

Epidemiological Consultant, Moderna, Cambridge, MA — 2023 – 2025
- Developed dynamic transmission models to evaluate the clinical and economic impact of COVID-19 and influenza vaccination strategies

Postdoctoral Fellow, Harvard T.H. Chan School of Public Health, Boston, MA — Jan 2019 – Jul 2023
- Identified drivers of geographic and temporal variation in antibiotic prescribing in the US
- Produced global COVID-19 projections, measured geographic disparities in COVID-19 transmission in New York City, and characterized SARS-CoV-2 viral load trajectories

Epidemiological Consultant, Partners In Health, Boston, MA — Dec 2020 – Apr 2021
- Provided expert consultation on equitable vaccine prioritization strategies leading to guidance documents for public health departments and non-profits in the US

Epidemiological Consultant, National Basketball Association, New York, NY — Jul 2020 – Jun 2021
- Provided model-based guidance on testing, game schedule, and venue occupancy for safely resuming the 2020–21 professional basketball season

Junior Research Fellow, Queens' College, University of Cambridge, Cambridge, UK — Oct 2017 – Oct 2020
- Conducted national (UK) citizen science study on human mobility and interaction patterns

Honors and Awards

Kalpana Chawla Outstanding Recent Graduate Award 2025
Awarded by the University of Colorado Alumni Association to alumni who have made exceptional contributions to their field and significant contributions to the community.

NOMIS & *Science* Young Explorer Award, Runner-Up 2022
Awarded by NOMIS and AAAS for outstanding research described in a 1,000-word essay; essay published in *Science*.

Barry R. and Irene Tilenius Bloom Fellowship 2022
Harvard Chan School trainee award recognizing academic merit, leadership potential, and commitment to improving public health in fields and areas of the world in greatest need.

Institut Mittag-Leffler Fellowship 2018
Awarded funding to attend a two-week residential research program on mathematical biology in Stockholm, Sweden.

Research Fellowship, Queens' College, University of Cambridge 2017
Awarded three years of funding to conduct independent research in mathematics.

65th Lindau Nobel Laureate Meeting 2015
One of 650 young scientists selected internationally to attend a week-long academic exchange with 70 Nobel Laureates in physics, chemistry, and physiology & medicine.

Gates Cambridge Scholarship 2014
Merit, leadership, and service-based award for full funding to complete a Ph.D. at the University of Cambridge.

Outstanding Graduate, University of Colorado College of Engineering 2014
Selected for outstanding achievement in research, service, and academics.

Funding

Awarded

Mathematical modeling to accelerate tuberculosis vaccine trials 2026
Co-PI, with Co-PI Tyler Brown (University of Colorado Anschutz)
$75,000 total, split between University of Colorado Boulder and University of Colorado Anschutz
University of Colorado Anschutz-Boulder (AB) Nexus Exploratory Grant

Quantifying the design of effective testing-based policies through infection trajectory modeling 2025 – 2027
PI, with Co-PI Daniel Larremore (University of Colorado Boulder)
$968,765 to University of Colorado Boulder
NSF/CDC: Mathematical Modeling of Policy Options for Evolving Public Health Challenges

The Watering Whole: Forming a large-scale research collaboration focusing on understanding the modern people, materials, and contaminants flowing with the One Water Cycle 2025 – 2026
Co-PI, with PI Cresten Mansfeldt and Co-PIs Shideh Dashti, Julie Korak, Abbie Liel, Sheldon Masters, Nicole Xu (University of Colorado Boulder)
$100,000 to University of Colorado Boulder
University of Colorado Boulder 2026 Catalyzing Research Teaming Awards

Submitted/Pending

The timing extremes of acute viral kinetics that drive disease transmission and control — 2027 – 2032
PI
$3,111,688 requested
NIH Director's New Innovator Award (DP2); submitted 2026

Reconciling the clinical and epidemiological notions of health — 2027
PI
$15,000 requested
University of Colorado President's Fund for the Humanities; submitted 2026

Invited Presentations

Workshop on Public Health Policy, Risk Perception, and Infectious Disease, University of Vermont (Essex, VT) — Aug 2026
Invited session: Overview of workshop takeaways

European Centre for Disease Prevention and Control: Modelling Perspectives (Virtual) — Jun 2025
Title: Integrating viral kinetics into routine outbreak surveillance

University of Illinois Urbana-Champaign Department of Microbiology Colloquium (Champaign, IL) — Apr 2025
Title: Measuring, modeling, and interpreting the kinetics of respiratory viruses

Keynote: Boettcher Foundation Webb-Waring Innovation Summit (Denver, CO) — Oct 2024
Title: Innovations in pandemic modeling and beyond

Colorado School of Mines Department of Applied Mathematics and Statistics Colloquium (Golden, CO) — Oct 2024
Title: Modeling infectious disease dynamics across scales

Massachusetts Consortium on Pathogen Readiness Variants and Vaccines Meeting (Virtual) — Feb 2024
Title: Viral kinetics of sequential SARS-CoV-2 infections

Predictive Intelligence for Limiting Outbreak Threats (PILOT) Workshop (Boston, MA) — Sep 2023
Title: Incorporating human behavior into infectious disease models

MIDAS Conference to Increase Diversity in Mathematical Modeling and Public Health (Boston, MA) — Mar 2023; 2019
Title: Introduction to SIR modeling (lecture to separate student cohorts in 2019 and 2023)

Contagion on Complex Social Systems (Boulder, CO) — Aug 2022
Title: Linking viral kinetics with disease transmission and control

Expert Consultation Meeting on the Implementation and Evaluation of Non-Pharmaceutical Interventions (Stockholm, Sweden) — Jun 2022
Panel: Non-pharmaceutical interventions: The North American experience

Latin American Symposium on Epidemiological Methods in the COVID-19 Pandemic (Boston, MA) — Jun 2022
Title: Introduction to infectious disease models

Modelling Behaviour to Inform Policy for Pandemics, University of Cambridge (Virtual) Nov 2021
Title: The BBC Pandemic programme

Fred Hutch/Washington State University Workshop on Virus Dynamics (Virtual) Oct 2021
Title: Modeling SARS-CoV-2 dynamics across scales

Harvard/Broad Institute Working Group on SARS-CoV-2 Variants (Virtual) Mar 2021
Title: Viral dynamics of the SARS-CoV-2 variant B.1.1.7

UK Scientific Pandemic Influenza Group on Modelling (SPI-M) (Virtual) Feb 2021
Title: Viral dynamics of the SARS-CoV-2 variant B.1.1.7

Emory University Theory and Modeling of Living Systems Symposium on SARS-CoV-2 Modeling (Virtual) Jan 2021
Title: Preparing for Gen C: Training a new generation of epidemiologists to meet a new generation of public health crises

COVID-19 Dynamics and Evolution (Virtual) Jul 2020
Title: Geographic disparities in SARS-CoV-2 prevalence are predicted by reductions in commuting-style mobility

Council of State and Territorial Epidemiologists Training Session (Virtual) Jun 2020
Title: Modeling SARS-CoV-2 transmission in a shifting landscape

Boston University Department of Epidemiology Colloquium (Boston, MA) Jan 2020
Title: Accounting for trends in antibiotic prescribing: better prescribing or less disease?

Infectious Disease Dynamics Conference (Ambleside, UK) Sep 2019
Title: Accounting for trends in antibiotic prescribing: better prescribing or less disease?

Probability and Biological Evolution, Centre International de Rencontres Mathématiques (Marseille, France) Jun 2018
Title: Human mobility and strain dynamics

Contributed Presentations

Epidemics10: 10th International Conference on Infectious Disease Dynamics (San Diego, CA) Dec 2025
Poster: Climate informed Bayesian forecasting of seasonal influenza dynamics using a non-stationary ARIMA model
M. Richards-Dinger (presenter), **S.M. Kissler**

ISPOR 2025 (Montréal, Canada) May 2025
Poster: The potential clinical impact of the Moderna next-generation COVID-19 mRNA-1283 vaccine in United States adults
M. Kohli, M. Maschio, K. Fust, A. Lee, K. Joshi, **S.M. Kissler**, N. Van de Velde, E. Beck

IDWeek (Boston, MA) Oct 2023
Title: Viral kinetics of sequential SARS-CoV-2 infections
S.M. Kissler, J.A. Hay, J.R. Fauver, C. Mack, C.G. Tai, D.J. Anderson, D.D. Ho, N.D. Grubaugh, Y.H. Grad

IDWeek (Boston, MA) Oct 2023
Title: Assessing the potential reduction in morbidity and mortality attainable by delayed influenza vaccine strain selection
S.M. Kissler, K. Joshi, N. Van de Velde, N. Vicic, Y. Park, D. Rudin, P. Ghaswalla

Kern National Network for Flourishing in Medicine 2023 Conference — Sep 2023
Title: Virtue in caring for the individual and caring for the collective
M. Kissler, **S.M. Kissler**, A. Nussbaum

Teaching

University of Colorado Boulder, Boulder, CO

- Introduction to Data Science with Probability and Statistics (CSCI 3022) — Fall 2026
- First-year Engineering Seminar (COEN 1830) — Fall 2024, 2025
- Information Theory, Statistical Inference, and Applications (CSCI 7000) — Spring 2024, 2025
- Calculating Biological Quantities (CSCI 2897) — Fall 2023, 2024
- Intro to MS Research (CSCI 5000) – Guest lecturer — Fall 2023
- Technology, Cybersecurity, and Policy Seminar (CYBR 5000) – Guest lecturer — 2020

Harvard T.H. Chan School of Public Health, Boston, MA

- Introduction to Infectious Disease Dynamics (EPI501) – Guest lecturer — 2021
- Introduction to Clinical Epidemiology (EPI208) – Guest lecturer — 2020 – 2021
- Mathematical Modeling of Infectious Diseases (EPI260) – Teaching fellow — 2020

Boston University, Boston, MA

- Advanced Methods in Infectious Disease Epidemiology (BS825) – Guest lecturer — 2021

Brandeis University, Waltham, MA

- Introduction to Epidemiology, Biostatistics, and Population Health (HSSP 100B) – Guest lecturer — 2021

University of Cambridge, Cambridge, UK

- Mathematical Biology (Part II) – Supervisor — 2015 – 2018
- Social Networks and Behavioural Ecology (Part II) – Guest lecturer — 2017

Mentorship

University of Colorado Boulder, Boulder, CO

Primary:
L. Hadley: Postdoctoral fellow, Oct 2024 – present
M. Richards-Dinger: PhD candidate (Applied Mathematics), Mar 2024 – present
L. Wilson: PhD student (Applied Mathematics), May 2026 – present
M. Kenny: PhD student (IQ Biology), Oct 2026 – present
P. Simaku: MPH student (Colorado School of Public Health), Sep 2026 – present
L.X. de Pablo: MS student (Computer Science), May 2025 – present; PhD candidate (Ecology & Evolutionary Biology, co-mentor), Sep 2024 – present.

Co-mentor:
K. Bardsley: PhD candidate (Ecology & Evolutionary Biology), Sep 2024 – present

Thesis committees:
M. Moore: PhD (Ecology & Evolutionary Biology), 2026 – present

Alumni:
C. Middleton: PhD (Computer Science, co-mentor), Aug 2023 – May 2025. Now postdoctoral fellow, University of Texas at Austin
A. Thilagar: PhD (Computer Science, co-mentor), Sep 2024 – May 2025
I. Kasarskis: PhD (Environmental and Occupational Health, co-mentor), Feb 2024 – Mar 2025. Now Epidemic Intelligence Service officer, CDC Mycotic Diseases Branch
C. Fulton: PhD student (Applied Mathematics), Jan 2024 – 2025. Now at the Institute for Defense Analyses
N. Rahal-Arabi: MS (Computer Science), Oct 2024 – May 2025
A. Paul: MS (Computer Science), Oct 2024 – May 2025
L. Slemp: PhD rotation student (Biochemistry), Sep – Dec 2024

K. Bubar: PhD (Computer Science, co-mentor), Aug 2023 – May 2024. Now postdoctoral fellow, Stanford University

Harvard T.H. Chan School of Public Health, Boston, MA 2019 – 2023
Mentored four graduate students on projects including predicting the impact of a gonococcal vaccine on antibiotic prescribing, using point-of-care diagnostics to detect pathogens with antimicrobial resistance, and estimating spatial and temporal variation in antibiotic prescribing and antibiotic resistance.

University of Cambridge, Cambridge, UK 2017 – 2019
Mentored a doctoral student on identifying optimal distance metrics for geographic disease transmission models.

Service

General/Field

- Editorial Board Member, *Communications Health* 2026 – present
- Guest Editor, *PLOS Computational Biology* 2026
- National Science Foundation Emerging Mathematics in Biology (eMB) review panelist 2025
- Marsden Fund (Royal Society Te Apārangi, New Zealand) external reviewer 2024
- National Science Foundation IHBEM review panelist 2023
- Boettcher Foundation COVID-19 Innovation Fund review panelist 2020
- Ad hoc journal reviewer (BMJ Open, Clinical Infectious Diseases, eLife, Elsevier S&T Books, Emerging Infectious Diseases, Epidemics, JAMA Network Open, Journal of the Royal Society Interface, The Lancet, Nature, Nature Communications, Nature Human Behaviour, Philosophical Transactions of the Royal Society B, PLOS Computational Biology, PLOS Medicine, PLOS One, PNAS, Science) 2019 – present

University of Colorado Boulder, Boulder, CO

- BioFrontiers Council member 2024 – present
- IQ Biology PhD program admissions reviewer 2024 – present
- IQ Biology group rotation mentor Spring 2024
- Teaching Circle coordinator Spring 2024
- Graduate Committee member; Mentorship Subgroup lead 2023 – present
- Humanities & Social Sciences Committee member 2023 – present
- New faculty lunch organizer 2023
- AB Nexus grant reviewer 2023

Harvard T.H. Chan School of Public Health, Boston, MA

- Fungal Pathogen Modeling Working Group, founding member 2023
- WHO Access to COVID-19 Tools Accelerator (ACT-A) Modeling Consortium, member 2021 – 2023
- Get Out the Vax volunteer (bilingual phone banking to register people for vaccination) 2021
- Podcast host, *Pandemic: Coronavirus Edition* 2020 – 2022
- CDC COVID-19 Modeling Working Group, contributing member 2020
- Harvard Chan Postdoctoral Association departmental representative (Immunology and Infectious Diseases) and Mental Health Initiative coordinator 2019 – 2022

University of Cambridge, Cambridge, UK

- Queens' College undergraduate admissions interviewer 2017
- Addenbrooke's Hospital chaplaincy volunteer 2016 – 2018
- Worms and Bugs Seminars co-organizer (cross-disciplinary disease modeling seminar) 2015 – 2018

Publications

Bold: S.M. Kissler. Underline: trainee under my supervision. *: equal contribution.

Peer-reviewed publications

49. L. Hadley, R.M. Milwid, V. Hongoh, R. Wasfi, **S.M. Kissler***, I. Papst*. Making inferences with incomplete epidemiological data: a proof-of-concept estimating measles vaccine coverage across Canada. *Vaccine*, in press.
